

Candidate

Anthony Egipciaco Jr

29th District State Representative

On April 25th, 2024, my opponent (Rep. Bill Bush-D) voted to pass **HB 350** This bill puts Delawares health care system in jeopardy. Once again, he has voted against the people of the 29th District and the Delaware Healthcare Association. This bill creates an unelected board of bureaucrats to control the health care system. This will lead to longer wait times, Cancer wait times in Europe for **2023 are the worst ever recorded!** (*source [bbc.com/news/health-68240096](https://www.bbc.com/news/health-68240096)*) Do we really want unelected bureaucrats controlling our health care systems? Do we really want unelected bureaucrats telling us to “give grandma ma a Pill”? Help me send a clear message to him (Rep. Bill Bush) and all other Democrats that we will not take it anymore! ***It is time for a New Direction!***
